You can also set hotkeys for your skills by hovering over and holding them. At the top of each menu are icons with a key, arrows, etc. that can help you find the skills you need. All hotkeys have the same meaning: by clicking on them, you will activate the selected skill. The menu also contains a link to the wicd.html file, which defines everything you need to know. This is a help file that displays a brief summary of each skill, clicking on which will open a full explanation of how you can use it and how to set it up.
