3.4 using the new json native driver: 20. How to set up MongoDB using mongodb 3.4 using the new json native driver: 21. How to set up MongoDB using mongodb 3.4:[Thymomas of intermediate and high-grade malignancy]. A group of 30 patients with thymomas with histological grade I and II malignancy is presented. Clinical symptomatology was mainly characterized by compression of trachea and bronchi. A great variety of thymomas, ranging from large and soft tumors with intrathymic and mediastinal, to compact, calcified and firm ones, were discovered in all patients. The diagnosis was based on anatomo-morphological examination of the tumor, and on clinico-radiological examination and CAT of the lungs. Some results of a follow-up of 2 to 15 years are given. a great majority of the Spaniards have the memory of a gnat and the half-open sea, with its stormy caprices, has always been their great enemy. Now the wind that their first discoverer, Columbus, had named the 'dangerous and fearful wind', has carried him away; at last they are going to enjoy him as they would enjoy the 'Holy Ghost' if the bad weather had not prevented them from landing on their shores. If a godly wind blows once in our lifetime, what a blessing it is
